

Fish Tail Braid

1.

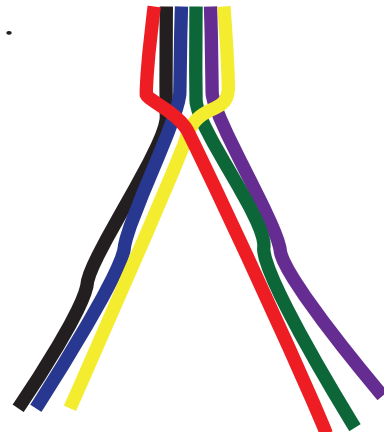

Tie six strands together and separate into two sections of three.

2.

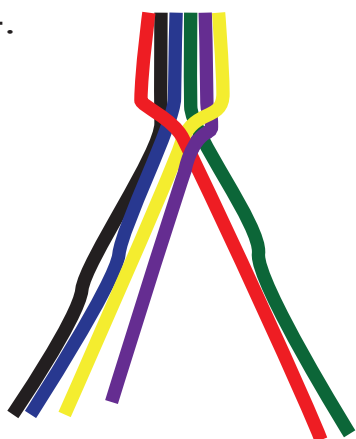

Move the outside right strand (yellow) to the center.

3.

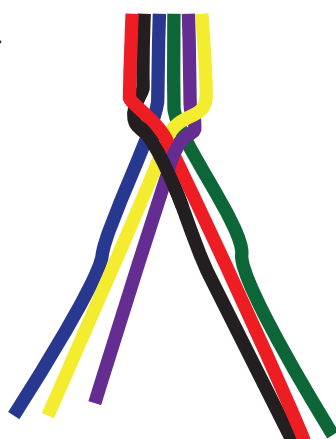

Move the outside left strand (red) to the center.

4.

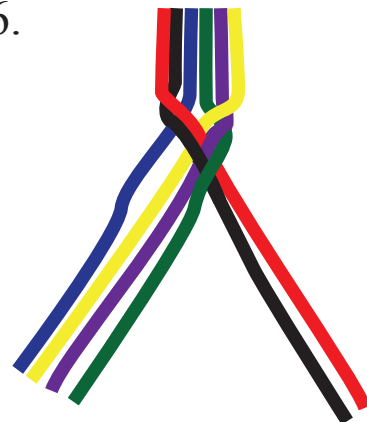

Move the outside right strand (purple) to the center.

5.

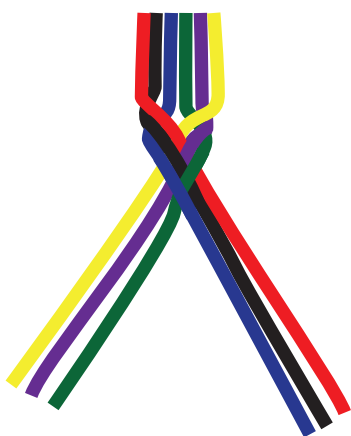

Move the outside left strand (black) to the center.

6.

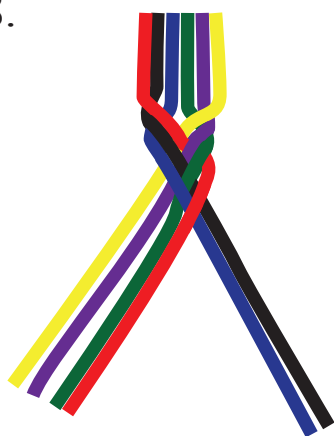

Repeat steps 2 and 3 until braid is at desired length.

7.

8.

Tie a knot at the end of the braid when finished.
